57/22 CODE OF CONDUCT OF LOCAL AUTHORITY MEMBERS

The Chairman reminded members of the need to declare their interests at all meetings where matters being discussed, or to be discussed, affected their interests.

58/22 PUBLIC PARTICIPATION

The meeting closed at 7.42 pm.

Inspector Helen Deakin introduced herself. She oversees Community policing in Christchurch and Boscombe. Separate front line response teams respond to 999 calls. There are 2 community policing teams, one covering each ward. The team covering Christchurch consists of 1 Sergeant, 4 PC's and 5 PCSO's. The 3 local priorities are:

Antisocial behaviour

Drugs

Theft/burglary.

Response is based on “threat, risk, harm”. As a result, if you come back and find your property has been broken into, they will not respond in person. However, if someone is still in the building, there is a threat so they may respond in person.

Cllr Mrs M Phipps raised a recent incident in Hurn when a trailer was stolen. CCTV footage was available giving details of the vehicle which has taken the trailer and the direction it had been taken. The police did not respond to the report. She tried to contact all of the Inspector's team on behalf of the victim but received no response. Apparently, the report of the theft would have gone into a pile of similar reports to have been dealt with some time afterwards by which time the information on where the trailer had been taken would have been of no use. This is very frustrating for the victim and leads to member of the public being disillusioned with the police especially when they will not retrieve stolen property. The Inspector sympathised with the victim, but the police do not have the resources to respond and must prioritise.

Anne Colmer explained there had been repeated problems with young people building cycle tracks in the Ramsdown Forest. As well as causing damage to the SSI and causing a risk to members of the public by digging holes there was drug taking. She asked if this would be responded to. The Inspector said no. She needs to report each individual incident with details time, place etc. If a large picture appeared, they may be able to respond. Volume of incidents increased the priority.

Cllr Mrs M Phipps raised the issue that personnel were being diverted away from Christchurch to Boscombe. The Inspector agreed this did happen if circumstances required it.

Cllr M Cranham reported that 2 police officers had interviewed him about a pet bird in his garden which he had had for many years. Yet the police did not respond when there was information to retrieve stolen goods. Wasn't she worried that people would take matters into their own hands?

Cllr Mrs M Phipps highlighted that Residents did not think they received co-operation from the police. She was burgled and did not report it as there was no point as the police would not respond. The Inspector said underreporting was a national problem. It was important to always report crimes as it built up a picture of problem areas. She acknowledged that the 101 service has problems. Her team, work the same shifts and have the same days off. The response police will always respond to 999 calls if they reach the priority for "threat, risk, harm".

The Inspector explained that her team work with other agencies to deal with prolific offenders who commit thefts and anti-social behaviour.

Councillors said there was an all-time low perception of the police. Council tax payers were being asked to pay over inflation increases for the police but did not see them responding when they were the victims of crime. It was very frustrating. The Inspector understood this perception. County lines were a priority as it had massive impact on the young people targeted. Although this was a small issue for local residents.

Cllr Mrs H Balkaya Shore asked if there were enough resources to deal with multiple incidents at the weekends. The post office has been targeted on several occasions and the response has been very disappointing. In another incident 2 local residents who were in the post office had to help to contain a seemingly metal disturbed man who came into the store. The man was causing problems, trying to get into an elderly couples' car etc. The police never attended.

Anne Colmer asked about youths taking drugs, antisocial behaviour. Does this need to be reported every time? Cllr M Cranham asked about illegal e-scooters, can they go on the pavement. The Inspector responded no; they need insurance. They cannot tackle problems with e-scooters, they do not have the resources.

Cllr Mrs M Phipps commented that they were promoting crime as criminals knew they could get away with it. The Inspector reiterated that if a crime was in progress to dial 999.

Cllr Mrs M Phipps thank Inspector Deakin very much for coming. Cllrs were supportive of her personally but very frustrated with the police responses as a whole. It was useful that Cllr I Evans was on the Single point of contact committee and could raise issues and report back to the Parish Council.

The Clerk said that when PCSOs Karl Stark and Michelle Clarke attended a meeting, they made a crime report and said the Parish Council would be sent the figures each month, but this hadn't happened. The Inspector agreed the crime figures would be supplied each month and Officers would attend some Parish Council meetings. She was happy to come back again in 6 months' time if invited. Cllr Mrs M Phipps said if

she agreed which meeting she would attend it would be put in the newsletter to give Residents the opportunity to attend.

The meeting was reopened at 8.19pm
